

Capitalism is the freedom to prosper!

Capitalism is freedom

- ☞ the freedom to create what you dream
 - ☞ the freedom to enjoy what you create
- ☞ the freedom to choose what you value

Mankind's greatest inventions

- ~ from the steam engine to the airplane ~
 - ~ from the telegraph to the Internet ~
- have been created under capitalism*

Capitalism has, over the past two hundred years, lifted men's living standards to heights undreamed of in the pre-capitalist era.

Only capitalism liberates you from the chokehold of petty inspectors, corrupt politicians, and restrictive laws.

Cherish your freedom and celebrate Capitalism!
